Miami 1089.4 372.4 Dodge Island Causeway 22 Draw is open except for trains.		1088.6	371.6	Venetian Causeway (West spa	an) 12	The draw shall open on signal, except that from 7 a.m. to 7 p.m. daily, including Federal holidays, the draw need only open on the hour and half hour
	Miami	1089.4	372.4	Dodge Island Causeway	22	Draw is open except for trains.

The signal to request opening of a drawbridge is one prolonged blast followed by one short blast. To contact a bridge with a marine radio, use VHF 9 as a calling and working frequency. The bridge will also monitor channel 16.

BE ADVISED that opening schedules may change for bridge construction, maintenance, inclement weather conditions or special events. Please contact the District or the U.S. Coast Guard for a listing of these temporary schedule changes.

**Miles south from Norfolk. Mileages in this column are correlated directly with the markers (indicated every five miles) on applicable national ocean survey charts (11489, 11485, 11472, 11467).

Fixed bridges crossing the Atlantic Intracoastal Waterway are not listed in this guide. All fixed bridges crossing the channel of the Atlantic Intracoastal Waterway in Florida have a clearance of 65 feet above MHW except the Julia Tuttle Causeway in Miami, which has a 56-foot clearance.

Horizontal clearance between fenders at most bridges is 90 feet, however, some bridges may be less. The Bridge of Lions and the Venetian Causeway have the least horizontal clearances.

The information appearing in this guide was compiled from the U.S. Code of Federal Regulations s.117.261, independently verified, and reproduced and distributed by the Florida Inland Navigation District. This format was chosen to make it a ready reference for those traversing the Atlantic Intracoastal Waterway in Florida.
