

Summary Report of Liveaboard Vessels and Key West Bight Marina's Dinghy Dock Usage January 19, 2022

In the month of January, 167 additional daily/weekly dinghy passes have been issued so far. Of these, 53 were new vessels that have been identified as living aboard, 6 stated were considered local workforce.

There are now 225 identified liveaboards currently using KWB facilities. Of those, 178 said they were considered local workforce.

This chart represents raw data only.

For a clearer picture of those using the facilities, we asked three questions of every vessel using our facility.

- 1- Do you consider your vessel home? Are you stating you are a "Liveaboard Vessel", Y/N
- 2- Do you currently use the free pump out service in Monroe County? Y/N
- 3- Do you work locally, are you employed locally? Y/N.

Those questions provided the following data over the last 3 months.

- 294 individual vessels answered they were Liveaboards. (This number differs from actual liveaboards number currently using the facilities as vessels come and go)
- In Oct, only 65 reported using pump out service, now 180 with documented service of pump out.
- 178 individual vessels stated they are workforce vessels

The pump out numbers match the 111 paid monthly vessels and roughly 35% of daily vessel passes issued.

These figures do not include those that are in the basin but do not use KWB marina facilities. An example is the listing of other LA. These are known liveaboards in the basin but have no record of having used our facilities. Same as the 21 vessels on the local pump out list, but no record of them at the docks.

The decrease in other LA started in October due to the City tracking vessels and occupants and requiring compliance with pump.

Definitions

Registered – Those vessels that filled out paperwork to apply for monthly passes.

Pd Monthly – Number of individuals that purchased a monthly pass.

Pd Weekly/Daily – Number of vessels paying for a week/day dinghy pass. This represents individual vessels, not total visits.

Total PD – Total number of vessels that paid for access in that month.

Pump outs – Number of different vessels pumped out in that month.

Other LA – Other known live aboard vessels in harbor.
